Standards for Granting a Special Exception

The applicant bears the burden of proof to demonstrate that an application complies with these standards.

Are there covenants and restrictions pertaining to the property which would preclude the uses permitted in the proposed zoning district?

- (1) The existing land use pattern.
- (2) Whether the proposed use is consistent with the Comprehensive Plan.
- (3) Whether all proposed structures, equipment or material will be readily accessible for fire and police protection.
- (4) Whether the proposed use will be of such location, size, and character that, in general, it will be in harmony with the appropriate and orderly development of the area in which it is proposed to be situated and will not be detrimental to the orderly development of adjacent properties or a deterrent to the improvement of adjacent properties in accordance with the zoning classification of such properties, the existing land use pattern or the Comprehensive Plan.
- (5) Whether, in the case of any use located in, or directly adjacent to, a residential district or area:
 - (a) The nature and intensity of operations will be such that both pedestrian and vehicular traffic to and from the use and the assembly of persons in connection therewith will not be hazardous or inconvenient to, or incongruous with, said residential district or area, or conflict with the normal traffic of the neighborhood; and
 - (b) The location and height of buildings, and other structures, and the nature and extent of screening, buffering or landscaping on the site will be such that the use will not hinder or discourage the appropriate development and use of adjacent land and buildings in conformance with existing zoning districts and development pattern.
- (6) Whether the proposed use will increase the population density resulting in the increase or overtaxing of the load on public facilities such as schools, utilities, streets, etc.; or approval of the use would encourage adjacent areas to develop at higher densities than provided in the comprehensive plan resulting in the overtaxing of such public facilities.
- (7) Whether the proposed use will cause a health hazard, a public safety problem, or create a nuisance or cause excessively increasing traffic and associated congestion; create a drainage problem; generate unnecessary disturbance due to noise, the emission of smoke or other contaminants, odor, electrical interference, or cause pollution to land, air and/or water.
- (8) Whether the proposed change will adversely affect property values in adjacent areas.
- (9) Whether there are substantial reasons why the property cannot be used for a permitted use in the district where the property is located.
