OFFICE OF THE CITY MANAGER

MEMORANDUM

TO: Mayor/Council
FROM: Lee Gilmour, City Manager
DATE: October 29, 2021
REFERENCE: Irrigation water meters

The City is experiencing a direct impact from the nation-wide supply issue. In spite of repeated requests and examination of options the city will be out of water meters in a short time. The anticipated delivery of meters is 42 weeks.

Rather than placing a moratorium on new constructions the Administration recommends council approved the following process:

1. City will immediately cease installing irrigation meters.
2. Any permittee who has paid for an irrigation meter will have that fee refunded.
3. The city will continue to install the irrigation meter box and setup.
4. Any irrigation system installed without a meter will be provided a bill credit of December – March 7 units/bill and April – November 59 units/bill to compensate for the sewer charges associated with irrigation use.
5. Based on application time irrigation meters will be installed at no cost to the customer by city staff.
6. Once the irrigation meter is installed the bill credit will cease.
7. The customer is responsible for the full payment of the city service bill.
8. The building permit will not include the irrigation meter charge until the meter shortage is addressed.
