Request

*Please provide a summary of the proposed text amendment:

Amendment to Section 6-9.6, Nonresidential district sign standards.

In response to market dynamics which are encouraging more mixed-use development building concepts, changes proposed are to allow for mixed-use and multi-tenant commercial buildings to be permitted to display building-specific signage and branding in addition to proposed tenant-specific signage at the discretion of the administrator.

Instructions

1. The application, fee (made payable to the City of Perry), and proposed text of the amendment must be received by the Community Development Office no later than 4:30 pm on the date reflected on the attached schedule.
2. Fees: Actual cost of required public notice.
3. The applicant must state the reason for the proposed text amendment. See Sections 2-2 and 2-3.2 of the Land Management Ordinance for more information.
4. The staff will review the application to verify that all required information has been submitted. The staff will contact the applicant with a list of any deficiencies which must be corrected prior to placing the application on the planning commission agenda.
5. Text amendment applications require an informational hearing before the planning commission and a public hearing before City Council.
6. The applicant must be present at the hearings to present the application and answer questions that may arise.

Standards for Amendments to the Text of the Land Management Ordinance

In reviewing an application for an amendment to the text of the ordinance and acting on said application, the planning commission and city council may consider the following standards:

(1) Whether, and the extent to which the proposed amendment is consistent with the Comprehensive Plan.

This amendment is not inconsistent with these plans.

(2) Whether, and the extent to which the proposed amendment is consistent with the provisions of this chapter and related city regulations.

The proposed amendment is consistent with the format of the Land Management Ordinance.

(3) Whether, and the extent to which there are changed conditions from the conditions prevailing at the time that the original text was adopted.

Market conditions have changed with increased demand for mixed-use buildings and commercial buildings which host multiple tenants within a single structure. Buildings of this nature often exist under a unified name or brand encompassing a single destination building as a home for multiple tenants.

(4) Whether, and the extent to which the proposed amendment addresses a demonstrated community need.

A demonstrated community need exists, in that building identifiers are helpful beyond individual tenant spaces. A good example of this is the Chalet Lofts building, which holds different varieties of tenants under a unified building name/brand.

(5) Whether, and the extent to which the proposed amendment is consistent with the purpose and intent of the zoning districts in this chapter, will promote compatibility among uses, and will promote efficient and responsible development within the city.

The amendment is consistent with the purpose and intent of the signage ordinance, which is to establish orderly identifiers for both buildings and tenants in the City of Perry.

(6) Whether, and the extent to which the proposed amendment will result in logical and orderly development pattern.

The amendment is more comprehensive than existing standards resulting in a more logical and orderly signage development pattern.

(7) Whether, and the extent to which the proposed amendment will result in beneficial impacts on the natural environment and its ecology, including, but not limited to, water, air, noise, stormwater management, wildlife, vegetation, and wetlands.

The amendment has no direct impact on the natural environment.

(8) Whether, and the extent to which the proposed amendment will result in development that is adequately served by public facilities and services (roads, potable water, sewerage, schools, parks, police, fire, and emergency medical facilities).

The amendment has no impact on public facilities and services.

Addition to Subsection 6-9.6, adding a new Subsection 6-9.6(D) as follows:

Sec. 6-9.6. Nonresidential district sign standards.

(D) Mixed-use buildings and individual buildings containing multiple commercial tenants.

- (1) Additional signage beyond conforming tenant-specific signage, which functions as a unified building identifier for multi-tenant structures, may be considered following a request made in writing to the administrator. The administrator shall evaluate unique circumstances concerning the building's context and potential needs for additional identification beyond tenant-specific signage in consideration of such requests.
- (2) In the event a formal request is approved, the administrator shall be authorized to permit one additional unified building identifier sign per property.
- (3) In the event an additional building specific identifying sign is approved by the administrator, it shall conform to the sizing standards currently outlined in subsection 6-9.6.
