**NOTE:** Georgia Utility Contractor License Name \_\_\_\_\_ and No. \_\_\_\_\_  
 Is required for any project with the installation of pipe.

**Instructions**

- Application must be completed in its entirety. Permit will not be released with missing information.
- Copy of the approved Notice of Intent is to be provided along with application (if over an acre).
- No site work shall begin until a pre-construction meeting is held with the department.
- Pre-construction meetings shall be scheduled by contacting [comm.development@perry-ga.gov](mailto:comm.development@perry-ga.gov). It shall be the responsibility of the applicant/contractor to have at the pre-construction meeting three copies of the full set of the approved site plans and have the project engineer and licensed contractor in attendance. Should they not be in attendance the meeting will be cancelled. It is the responsibility of the applicant/contractor to invite appropriate utility companies; however, if they are not in attendance, it will be the responsibility of the applicant/contractor to contact them directly.
- Adherence to Stormwater Enforcement Policy. <https://perry-ga.gov/business-services/community-development/engineering>
- Prior to issuance of project Certificate of Occupancy Stormwater Maintenance Agreement and As-Builts are to be provided to Community Development.
- By signing below, you hereby certify that you fully understand the provisions of the City of Perry Erosion and Sedimentation Control Ordinance and accept responsibility for carrying out the Erosion and Sedimentation Control Plan for the referenced project. You further grant the right-of-entry onto the property described above to the designated personnel of the City of Perry for the purpose of inspecting and monitoring for compliance with the aforesaid ordinance.
