## **Community Togetherness: Stormwater Sticker Program**

It takes a community to build a community. Why not show it? Celebrate The Stormwater Sticker Program with this colorful custom sticker emphasizing the power of keeping our waterways clean.

Volunteers mark storm drains with the sticker message, "Only Rain Down the Drain" and distribute educational doorhangers to neighborhood homes and businesses.

This hands-on outdoor service activity is an ideal opportunity to improve our local water resources and an excellent fit for volunteers looking for a fun, outdoor team-building experience with immediate results.

### **A storm drain sticker service outing is scheduled for November 13, 2021.**

The sticker coordinator provides an educational presentation on how storm drains connect to our local streams. Unlike household water systems, storm sewers flow directly into our local waters, depositing whatever they pick up along the way — pesticides, motor oil, fertilizer, pet waste — directly to the nearest lake or river. Unfiltered. Untreated. The presentation is brief, engaging and can be tailored to the age and interests of your group.

Next, volunteers mark storm drains with the message, "Only Rain Down the Drain". Safety first all volunteers wear orange safety vests. (All supplies provided.)

Volunteers also distribute educational doorhangers to nearby homes and businesses, making a visual connection between the newly stenciled drains and local water quality, and what they can do in their home and yard to help protect our local waters.

If you are interested in participating, please contact Sarah L. Nottingham at 478-988-2735.
